

EDUCATION

Ph.D. Materials Science and Engineering, University of Wisconsin-Madison	(GPA: 3.70/4.0)	Aug 2024
M.S. Materials Science and Engineering, University of Wisconsin-Madison	(GPA: 3.70/4.0)	Dec 2020
B.S. Engineering, Fort Lewis College	(GPA: 3.99/4.0)	Dec 2017

SKILLS

Python, PyTorch, scikit-learn, Bash, Git, L<sup>A</sup>T<sub>E</sub>X, C++, OpenHPC, Vim, Docker, Apptainer, Linux, VASP, LAMMPS

TECHNICAL EXPERIENCE

Research Assistant Jun 2018 — Aug 2024  
Computational Materials Group, UW-Madison ..... Madison, WI

- **Machine Learning Domain of Applicability for Materials:** Developed a method using kernel density estimation to assess the applicability domain of machine learning models. The method effectively distinguishes chemically distinct groups and relates high dissimilarity with poor model performance and unreliable uncertainty estimates.
- **Scientific Cluster Construction and Administration:** Assisted in building and managing two high-performance computing clusters. Compiled materials research software and implemented Environment Modules to streamline software management.
- **Quantifying Metallic Glass Forming Ability:** Developed a high-throughput workflow for efficiently training machine learning interatomic potentials and simulating complex material properties. Properties were used to develop models for metallic glass forming ability and followed physically rational trends observed in previous research.

Summer Undergraduate Research Experience May 2017 — Aug 2017  
Computational Nuclear Engineering Research Group, UW-Madison ..... Madison, WI

- **Developed Python Tool:** Automated the visualization of Direct Accelerated Geometry Monte Carlo (DAGMC) geometries in VisIt.
- **Collaboration Friendly Code:** The Python PEP 8 coding style was adopted to facilitate easier reading.

Capstone Design Project Sep 2016 — Apr 2017  
Undergraduate Research, Fort Lewis College ..... Durango, CO

- **Built Instrumentation:** Team designed and built an exotic propulsion test stand.
- **MATLAB Modeling:** Implemented electrostatic displacement mechanism and modeled system response.

Summer Undergraduate Research Fellowship May 2016 — Aug 2016  
Advanced Diagnostics and Propulsion Research Laboratory, Purdue ..... West Lafayette, IN

- **Experimental Imaging:** Operated pressure vessels, X-ray tube sources, and high-speed cameras for analysis of two dimensional sprays.
- **Lead Shielding:** Constructed a protective lead enclosure for X-ray tube sources to shield operating personnel from excessive radiation exposure.

Design Project Dec 2015 — Apr 2016  
Undergraduate Research, Fort Lewis College ..... Durango, CO

- **Sensor Package:** Designed and developed an interchangeable sensor package for measurement of water temperature, oxygen reduction potential, pH, time, and global positioning system data.
- **Simple Deployment:** Package designed to be durable, waterproof, and easy to use by attaching to rafts or kayaks.

TEACHING EXPERIENCE

• Assisting undergraduates with research	Undergraduate
• Assisting laboratory group peers with software installation and cluster use	Graduate
• Assisted in class labs (molecular dynamics)	Graduate
• Grader for Thermodynamics of Solids	Graduate
• Public school substitute teacher	High/Middle/Elementary
• Teaching assistant for Thermal and Fluid Systems Laboratory	Undergraduate
• Teaching assistant for Engineering Fundamentals II (MATLAB)	Undergraduate

AWARDS, HONORS, AND SOCIETIES

• PPG Fellowship	University of Wisconsin-Madison, Madison, WI
• Ying Yu Chuang Graduate Support Award	University of Wisconsin-Madison, Madison, WI
• Sigma Pi Sigma (Physics Honor Society)	Fort Lewis College, Durango, CO
• Order of the Engineer	Fort Lewis College, Durango, CO
• Deans’ Council Freshman 4.0 Award and Certificate	Fort Lewis College, Durango, CO
• Freshman Chemistry Recognition Award	Fort Lewis College, Durango, CO

ADDITIONAL INFORMATION

Citizenship	United States, Colombia, and the Chickasaw Nation
Languages	English and Spanish (fluent written and verbal)
