

Education

Ph.D. Materials Science and Engineering, <i>University of Wisconsin-Madison</i>	(GPA: 3.70/4.0)	Aug 2024
M.S. Materials Science and Engineering, <i>University of Wisconsin-Madison</i>	(GPA: 3.70/4.0)	Dec 2020
B.S. Engineering, <i>Fort Lewis College</i>	(GPA: 3.99/4.0)	Dec 2017

Skills

Python, PyTorch, scikit-learn, Bash, Git, $\LaTeX$, C++, OpenHPC, Vim, Docker, Apptainer, Linux, VASP, LAMMPS

Technical Experience

Postdoctoral AppointeeDec 2024 — Present

Center for Integrated Nanotechnologies, Sandia National Laboratories, Albuquerque, NM

- **Graph Neural Networks:** Built graph neural networks to predict metal-organic framework properties with uncertainty estimates.
- **Bayesian Optimization:** Screened metal-organic frameworks with graph neural network surrogates for favorable separation properties of volatile organic compounds.

Research AssistantJun 2018 — Aug 2024

Computational Materials Group, UW-Madison Madison, WI

- **Machine Learning Domain of Applicability for Materials:** Developed a method using kernel density estimation to assess the applicability domain of machine learning models. The method effectively distinguishes chemically distinct groups and relates high dissimilarity with poor model performance and unreliable uncertainty estimates.
- **Scientific Cluster Construction and Administration:** Assisted in building and managing two high-performance computing clusters. Compiled materials research software and implemented Environment Modules to streamline software management.
- **Quantifying Metallic Glass Forming Ability:** Developed a high-throughput workflow for efficiently training machine learning interatomic potentials and simulating complex material properties. Properties were used to develop models for metallic glass forming ability and followed physically rational trends observed in previous research.

Summer Undergraduate Research ExperienceMay 2017 — Aug 2017

Computational Nuclear Engineering Research Group, UW-Madison Madison, WI

- **Developed Python Tool:** Automated the visualization of Direct Accelerated Geometry Monte Carlo (DAGMC) geometries in VisIt.
- **Collaboration Friendly Code:** The Python PEP 8 coding style was adopted to facilitate easier reading.

Capstone Design ProjectSep 2016 — Apr 2017

Undergraduate Research, Fort Lewis College Durango, CO

- **Built Instrumentation:** Team designed and built an exotic propulsion test stand.
- **MATLAB Modeling:** Implemented electrostatic displacement mechanism and modeled system response.

Summer Undergraduate Research FellowshipMay 2016 — Aug 2016

Advanced Diagnostics and Propulsion Research Laboratory, Purdue West Lafayette, IN

- **Experimental Imaging:** Operated pressure vessels, X-ray tube sources, and high-speed cameras for analysis of two dimensional sprays.
- **Lead Shielding:** Constructed a protective lead enclosure for X-ray tube sources to shield operating personnel from excessive radiation exposure.

Undergraduate Research, Fort Lewis College Durango, CO

- **Sensor Package:** Designed and developed an interchangeable sensor package for measurement of water temperature, oxygen reduction potential, pH, time, and global positioning system data.
- **Simple Deployment:** Package designed to be durable, waterproof, and easy to use by attaching to rafts or kayaks.

Teaching Experience

- | | |
|---|------------------------|
| • Assisting undergraduates with research | Undergraduate |
| • Assisting laboratory group peers with software installation and cluster use | Graduate |
| • Assisted in class labs (molecular dynamics) | Graduate |
| • Grader for Thermodynamics of Solids | Graduate |
| • Public school substitute teacher | High/Middle/Elementary |
| • Teaching assistant for Thermal and Fluid Systems Laboratory | Undergraduate |
| • Teaching assistant for Engineering Fundamentals II (MATLAB) | Undergraduate |

Awards, Honors, and Societies

- | | |
|--|--|
| • PPG Fellowship | University of Wisconsin-Madison, Madison, WI |
| • Ying Yu Chuang Graduate Support Award | University of Wisconsin-Madison, Madison, WI |
| • Sigma Pi Sigma (Physics Honor Society) | Fort Lewis College, Durango, CO |
| • Order of the Engineer | Fort Lewis College, Durango, CO |

Additional Information

- | | |
|--------------------|---|
| Citizenship | United States, Colombia, and the Chickasaw Nation |
| Languages | English and Spanish (fluent written and verbal) |
